Work Experience

IT Security Analyst at Worten

Oct, 2023 - Present

I am responsible for ensuring the integrity and security of the company's information systems. Using a proactive approach, I implement security strategies and monitor the environment using advanced tools such as Microsoft Sentinel and SOAR.

IT Security Analyst at KCS IT

Aug, 2022 - Oct, 2023

Allocated to a project for a client in the retail sector, I was responsible for implementing new use cases using Microsoft Sentinel, developing new integrations, enriching data sources, and automating incident response with SOAR.

Cybersecurity Data Engineer at Logical IT

Aug, 2018 - Aug, 2022

As a Cybersecurity Data Engineer, managed and administered complex information security data analysis environments, using tools like Splunk, Graylog and Elasticsearch, to implement security solutions, develop dashboards and use cases, and ensure high availability of systems for clients from various sectors, including finance, banking, retail, insurance, etc.

Education

Management of IT from Centro Universitário Senac

2010 - 2013

The program provided me with a complete overview of IT management, equipping me with leadership skills, knowledge of innovative technologies and management models, as well as preparing me for certifications such as Cobit, ITIL and agile methods.

High School Diploma with a focus on Data Processing from João Paulo I College

2003 - 2005

My technical course in data processing gave me a solid foundation in programming, databases and networking, opening doors to the world of technology and preparing me to face the challenges of the job market.

References

Thiago Tassele

CEO / Logical IT

“ Vinícius is an Amazing professional, creative, compromised with the work and the team, have a solid knowledge and facility do study by himself. We work together 2 times, on the first time he was a trainee on the team that I worked, on the second time, I was at the manager position at Security Web and hired him on the first chance that I had.

Bruno Pereira

SOC Coordinator / Worten

“ Vinícius is a highly skilled professional in the cybersecurity field. His technical expertise, particularly in SIEM and threat detection, combined with his proactive approach to problem-solving, makes him an invaluable team member.
